## INTEREST IN GOLF INCREASING STEADILY AMONG LOCAL PLAYERS

Saturday Afternoon First Tournament of New Schedule Will Be Played Over Country Club Course—Sunrise Golf Club Latest Innovation.

Golfers will have their chance Saturday afternoon, when a medal play handicap will be run off at the Country Club. In order to make a special feature of the day, the house committee has arranged for a dinner, to be followed by a domino tournament and a musical entertainment, and it is expected that all those who golf, and many who do not, will be on hand for the evening's fun.

From present indications the next few months will see a big boom in golf. The recently-appointed greens committee has announced a policy of promoting as many tournaments as the players will support, and as competition is the life of golf just as much as of trade, interest in the game should be correspondingly increased.

A sure sign that the golfers are fully awake is the number of team matches and four-ball fouromes that are being arranged days in advance. The players are not content to wander up to the club on the chance of finding a good match, but want to be sure of their games some time in advance. In consequence interest has been stimulated to a great extent. Country Club players have taken to arranging special team matches at either Moanalua or Haleiwa, and this change of course is also beneficial to their games.

The Country Club course is in good shape at the present time. Enlarging the ninth green and changing the position of the cup has made a big difference in the play of the last hole, and many an undesired extra stroke that came from putting downhill at the treacherous hole, is now eliminated. If

the groundkeeper can succeed in slowing up the first green somewhat, the course will be still further improved.

Alex Bell, the club pro, is playing marvelously steady golf just now, and one or two of the amateurs are also developing almost professional steadiness. The other day, in a four-ball match played in a rainstorm that lasted from the first tee to the eighteenth green, Bell reeled off a fine 74, 37-37. His driving is far and sure, and he has lengthened out his irons so that now, with a half mid-iron shot, he can easily do 190 yards. When it is remembered that all distance at the Country Club at this time of year is carry, and that even a ball off a wooden club stops dead in a few feet, these figures show clean, hard hitting.

Tom Gill and Harold Giffard are playing the best game among the amateurs, with George Angus and Frank Armstrong close seconds. Giffard is driving a very long ball these days, and he plays the game in better form than any of the other amateurs. Gill, Armstrong, F. W. Klebahn and a few other enthusiasts have an informal organization known as the Sunrise Golf Club. The requirements of membership are to be willing to turn out of bed in the cold, gray dawn and do a round before breakfast. Only players living within a reasonable distance of the course have qualified to date.

The first drawing for the golf pairings of tomorrow's match will be made at 1:30 and the second at 2 o'clock. An entrance fee of 50 cents will be charged in the event.

## New Armory Will Boost Sport

THREE OFFICERS WHO FAVOR CLEAN SPORT. The picture shows Colonel Jones (left, adjutant-general of the National Guard of Hawaii; Captain Johnson, U. S. A. (center), the new inspector-instructor, and Captain Camara (right), who is now in command of the quarantine guard at Kalihi.

## REGIMENTAL AND COMPANY ATHLETIC MEETS POPULAR WITH NATIONAL GUARD

The building of an up-to-date National Guard armory here will be a big boost for clean sport in Honolulu. In other cities where the militia is properly housed, the men have always turned their attention to athletics, and there is every reason to believe that the same rule will hold good here.

Interest in National Guard athletics and sports is on the increase on the mainland, and all the principal cities in the country have their regimental and inter-regimental track meets and military field days. These provide not only good sport, but also a good quality of sport, for some of the best athletes in the country are National Guardsmen, and take a pride in representing their regiment or company at the meets. Mel Shepard, probably the greatest runner in America today, was until very recently a member of one of the New York regiments, and won many points for it on the track. When citizen-soldiers get together in a well-equipped armory, with company rooms and all the modern conveniences, it is

comparatively easy to organize athletic meets and team competitions, between the various companies, or to get together a regimental team to take part in open events.

The National Guard of Hawaii has every chance to make good in athletics, and with the building of the new armory, baseball football and track teams are sure to develop. The armory itself will make an ideal place for indoor evening meets, and such purely military events as wall scaling never fail to draw crowds and provide excellent entertainment for the general public, besides promoting interest in military work.

Colonel Jones, adjutant-general of the guard, is heartily in accord with any move to encourage sport and may be counted on to give the men every opportunity to develop competitions.

Another keen enthusiast who will prove invaluable in assisting athletic ventures.

## WORLD'S LARGEST RAGTIME DANCE STADIUM AT YALE GETS THE HOUSE

NEW HAVEN, Conn.—The stadium which Yale proposes to build will be the largest in the world. According to the preliminary plans the structure will hold 70,000 persons, or twice the number of the Harvard stadium.

Unfortunately it will be impossible to commence work earlier than next summer, so that the arena will not be completed before 1913. Next year's Yale-Harvard game, therefore, will be played on the old Yale field. This will mean that next year each Yale graduate will be limited to one ticket, instead of two, as this year, and three in previous years.

## TEACHERS TO HEAR FROM THE DOCTORS

The annual meeting of the Territorial Teachers' Association is to be held Monday afternoon next at 3 o'clock at the McKinley High School.

One of the features of the meeting will be addresses made by Dr. Rupert Blue and Dr. W. C. Hobdy on the sanitation campaign with special reference to the duties of schools.

In addition to this the officers for the coming term are also to be elected. Notices have been sent out by Vaughan MacCaughy, secretary of the association.

## SIR WILFRED LAURIER MAY VISIT IN HAWAII

Dr. E. S. Goodhue, of Kona, has written to Sir Wilfred Laurier, the famous Canadian statesman and late premier, asking him to visit Hawaii, and has received a letter in return in which Sir Wilfred stated that he and Lady Laurier may come shortly after Christmas. Sir Wilfred was befriended by Dr. Goodhue's father when he was a young lawyer in Quebec.

Thomas W. Murphy, who was the biggest winning owner on the Grand Circuit this year, did some fast riding during the past year. He rode 295 miles in the races, not counting the ground he covered while scoring. Of the 295 miles, 155 were made in better time than 2:10. Some traveling, boys, some traveling!

## HIGH SCHOOL MAY SPRING SOME SURPRISES

Will Be a Much Improved Team When It Meets College of Hawaii Tomorrow.

McKinley High School and College of Hawaii meet on the football field tomorrow in the second game of the season. The first contest, played three weeks ago, went to Hawaii in rather hollow fashion, but the High School team, under the efficient coaching of Luke Rader, has made splendid progress recently, and during the last few days has come on very fast. Captain Rosa is confident that his team will be able to take care of itself when it tucks up against its next-door neighbors tomorrow. Captain Marcellino of Hawaii is equally confident that his team, having turned the trick once on the High School, will be able to do it again. And that's the way the matter rests at the present time.

One thing is apparent, and that is that the High-Hawaii game should be much closer and more interesting than either the Hawaii-Panama or the High-Panama affairs. Both sticks out head and shoulders above the other two teams playing the intercollegiate game, and has demonstrated both are easy picking.

Some surprises may be expected from the McKinleyites in tomorrow's game, for they have been working faithfully and Coach Rader has drilled more football into them in two weeks than they dreamed existed. The team may be expected to spring a bundle of trick plays that may prove good ground-winners, for Rader knows the so-called new football better than anyone else now in the islands, and he has spared neither himself nor his team in teaching.

The probable lineup of the two teams is as follows:

Hawaii—Yamashiro, le; Pratt, lt; Turner, lg; Pandolfi, c; Holt, rg; Clark, rt; Fraser, re; Marcellino (capt.), e; Rice, lb; Kuwamoto, rh; Consens, f.

High School—Carter, le; Young, lt; Dyson, lg; Hart, c; Awa, rg; Lightfoot, rt; Lai Tin, re; Parker, lb; Rosa (capt.), rh; Poo Kau, f; Aldrich, q.

## ANOTHER HANDICAP FOR MANOA CLUB

A handicap tournament for a special prize offered by Gurrey's Limited, will be run off at the Manoa Tennis Club in the near future. Play is scheduled to commence Saturday, November 25, but definite conditions have not been announced as yet.

The Manoa club has been unusually active, and has carried more events than all the other clubs in the city put together.

## INDOOR BASEBALL TONIGHT

An interesting indoor baseball game is on the cards for this evening, when the Juniors and Employed Boys of the Y. M. C. A. league come together. Both teams have been polishing off the rough corners and a good article of indoor ball can be expected. Parents of the players have received a special invitation to be present, the game being an exhibition affair given specially for them.

## JUNIOR STAMP COLLECTORS HOLD TRADING MEET

James Campbell, John Haglund, Lorrin Thurston, De Witt Alexander, William Harris, Kenneth Emory, Frank Cunningham, Philip Oventen, Norman Taylor, Harle Benner, Herbert Foster, Edwin Benner Jr., Edw. Pond, Pomeles Ewing, Fred Carter, Glen McTaggart and Alexander Small composed the junior branch of the Hawaiian Philatelic Society that held its semi-annual meeting in the Y. M. C. A. building Wednesday afternoon. There was considerable stamp trading after the regular business had been dispatched.

## AVIATOR GORDON IS IN THE CITY

H. K. Gordon, aviator and demonstrator for Glenn Curtiss, is now in Honolulu. He is here looking over the ground, and talking with prospective purchasers of Curtiss bi-planes. Gordon is a flyer of note himself, but of late he has neglected the exhibition for the business end of the game. He is a traveling representative, attending to the setting up of machines shipped from the factory, and teaching the rudiments of aviation to those amateurs who have the money and the inclination to take up the fascinating sport.

Gordon will be in Honolulu for another month, and will then move on to Australia. He has been paying close attention to the flying conditions in and around the city, and gives it as his opinion that the air currents here are exceptionally baffling and dangerous.

## BUFFALO BILL RETIRES FROM PUBLIC ACTIVITY

Will Spend His Remaining Years in the Wyoming Bighorn.

RICHMOND, Va., November 1.—Colonel William F. Cody (Buffalo Bill) retired from public life tonight. His show was packed off to winter quarters and his Indians will return to their tepees in what is left of the red man's land. Buffalo Bill intends to spend his remaining years in the Wyoming Bighorn, where he helped make American history. So far as public exhibitions are concerned, he has shot the ashes from the last cigar and chased the last Indian.

From a career which began as a pony express rider, and included many Indian battles and twenty-eight years as a showman, Colonel Cody became known as one of the most picturesque figures in American life. The soubriquet "Buffalo Bill" was earned in the early 60s, when he contracted to furnish buffalo meat to the laborers constructing the Kansas Pacific Railroad. In less than eighteen months he killed 4289 bison.

## WILL CAN WINTER CROP OF PINEAPPLES

It is stated by those who have the handling of the pineapple crop that a departure will be made this year from the usual routine and that instead of shipping the winter pines to the coast in a fresh state they will be all canned. This has been brought about by the strict quarantine rules that have been brought into force on the Coast and the fear that the lines might be drawn a little closer in the future unless the fruit fly is successfully eradicated.
